

TradesFlow Business Case

ROI Analysis for Decision-Makers

The Cost of Status Quo

Before evaluating TradesFlow, consider what your current approach is actually costing you.

Hidden Costs of Manual Processes

Problem	Annual Cost	How We Know
Lost jobs from forgotten follow-ups	\$15,000 - \$30,000	Industry avg: 40% of quotes never convert
Scheduling inefficiency (2 hrs/day)	\$20,000 - \$35,000	Avg hourly rate × hours wasted
Missed appointments / no-shows	\$5,000 - \$15,000	Avg job value × no-show rate
Invoice delays and lost payments	\$3,000 - \$10,000	10-15% of invoices paid late or lost
Customer churn from poor follow-up	\$10,000 - \$25,000	LTV × churn rate increase

Total Annual Cost of Status Quo: \$53,000 - \$115,000

Time Savings Analysis

Before TradesFlow: Daily Operations

Task	Time Spent
Morning scheduling review	30 minutes
Customer lookup in spreadsheets	45 minutes
Phone tag for confirmations	30 minutes
Manual invoice creation	45 minutes
Follow-up reminders (mental load)	30 minutes
Equipment history research	20 minutes
Total Daily Overhead	3+ hours

After TradesFlow: Daily Operations

Task	Time Spent
Morning scheduling review	5 minutes (visual calendar)
Customer lookup	5 minutes (instant search)
Automated confirmations	0 minutes (automatic)
Invoice creation	10 minutes (one-click)
Follow-up reminders	0 minutes (automated)
Equipment history	2 minutes (Equipment Passport)

Total Daily Overhead	22 minutes
----------------------	------------

Time Saved: 2.5+ hours per day = 650+ hours per year

Revenue Impact

Close Rate Improvement

Before: Industry average shows 40% of service quotes never convert due to lack of follow-up.

After: With automated reminders and the Equipment Passport building trust:

"My close rate jumped 40% in the first month." — Sarah Chen, Owner, Chen Electric

Impact on a \$500,000 revenue business:

- Current close rate: 60%
- After TradesFlow: 84% (40% improvement on the 40% that was lost)
- Additional revenue: \$60,000 - \$100,000 annually

Repeat Customer Revenue

The Equipment Passport drives repeat business:

- **Proactive warranty outreach:** Contact customers before equipment warranties expire
- **Service reminders:** Annual maintenance scheduling based on equipment history
- **Trust building:** Demonstrating expertise with detailed records

Estimated additional repeat revenue: \$15,000 - \$30,000 annually

ServiceTitan	\$4,776+
Housecall Pro	\$2,388+
Jobber	\$2,988+

TradesFlow savings: \$1,440 - \$3,828 per year

TCO Calculator

12-Month Total Cost of Ownership

Tier	Monthly	Annual	Best For
Starter	\$29	\$348	Solo tech (1 user, ≤50 customers)
Professional	\$79	\$948	Growing business (≤5 users, unlimited customers)
Enterprise	\$199	\$2,388	Larger teams (unlimited users, API access)

ROI Timeline

Month 1: Investment begins
└─ Setup: 5 minutes
└─ Training: Minimal (intuitive interface)
└─ Cost: \$29–\$199
Month 2: Efficiency gains visible
└─ Time savings: 40+ hours recovered
└─ Faster invoicing: 50% reduction in time-to-invoice
└─ ROI: Break-even achieved
Month 3+: Revenue acceleration
└─ Close rate improvement: 40%+
└─ Repeat customer increase: 25%+
└─ ROI: 10–20x monthly cost

Break-Even Analysis

How Quickly Does TradesFlow Pay for Itself?

Scenario	Monthly Cost	Break-Even Point
Recover 1 lost job/month	\$79	1 job (\$79+)
Save 5 hours of scheduling	\$79	2 weeks
Convert 1 additional quote/month	\$79	1 job (\$150+ avg)

Most businesses achieve break-even within the first 2-4 weeks.

 - **Total Value: \$2,125+/mo for \$199/mo = 10.7x return**
-

Risk Mitigation

What's the Risk of Not Acting?

Every month without a proper field service system:

- 3-5 jobs lost to poor follow-up
- 40+ hours wasted on manual processes
- Customer relationships that could have been strengthened
- Equipment knowledge that remains scattered

What's the Risk of Trying?

- **Financial risk:** \$0 (14-day free trial, no credit card)
 - **Time risk:** 5 minutes to try, 30 minutes for full setup
 - **Commitment risk:** None (cancel anytime, no contracts)
-

Recommendation

For trade businesses with:

- **1-2 technicians:** Start with Starter, upgrade to Professional when adding Equipment Passport
- **3-10 technicians:** Professional tier for full feature access
- **10+ technicians:** Enterprise tier for unlimited users and API access

Expected payback period: 2-4 weeks Expected annual ROI: 10-20x investment
