

TradesFlow Product Roadmap

Where We've Been and Where We're Going

Development Philosophy

Quality First

We build software the right way:

- **Test-Driven Development (TDD):** We write tests before code
- **Incremental Delivery:** Small, reliable releases over big, risky ones
- **Customer Feedback:** Real user input drives prioritization
- **Technical Excellence:** Clean architecture, minimal debt

Our Commitment

Principle	What It Means
No rush to ship	We'd rather be late and stable
Backward compatibility	Your data is safe
Transparent timeline	We share what we know
Responsive support	We're here when you need us

Current State: Wave 1 Complete

What's Live Now

Wave 1: Foundation (COMPLETE)

Component	Status
Authentication System	✓ Live
User Management	✓ Live
Business Setup	✓ Live
Landing Page	✓ Live
Test Coverage	✓ 199+ tests

Quality Metrics

- **Test Coverage:** 199+ passing tests
 - **Zero Critical Bugs:** Clean foundation
 - **Build Time:** < 2 minutes
 - **Deploy Frequency:** Continuous
-

Near-Term: Waves 2-4 (Q1-Q2 2026)

Wave 2: Customer Management (Next)

Feature	Description
---------	-------------

Customer CRUD	Create, read, update, delete customers
Customer Search	Search by name, phone, email, address
Customer History	View appointments, invoices, equipment
Notes System	Add notes to customer records

Expected: Q1 2026

Wave 3: Appointment Scheduling

Feature	Description
Calendar View	Daily, weekly, monthly views
Appointment CRUD	Create, reschedule, cancel appointments
Status Tracking	Pending → Confirmed → In Progress → Completed
Technician Assignment	Assign jobs to team members
Duration Estimates	Set expected job lengths

Expected: Q2 2026

Wave 4: Invoicing

Feature	Description
Invoice Creation	Create professional invoices
Line Items	Add multiple services/materials
Status Tracking	Draft → Sent → Paid → Overdue
Payment Recording	Mark invoices as paid
Invoice Linking	Connect to appointments

Expected: Q2 2026

Mid-Term: Waves 5-8 (Q2-Q4 2026)

Wave 5: Equipment Passport™

Feature	Description
Equipment CRUD	Add equipment to customers
Equipment Types	HVAC, Plumbing, Electrical, Appliance, Roofing
Specifications	Brand, model, serial, install date
Warranty Tracking	Expiration dates and alerts
Photo Upload	Equipment photos and documentation
Service History	Log services to equipment records

Expected: Q2 2026

Wave 6: Notifications

Feature	Description
SMS Integration	Twilio-powered text messages
Email Integration	Email notifications
Reminder Types	24h, 48h, confirmations
Automated Triggers	Schedule-based automation
Notification Center	View all sent/pending messages

Expected: Q3 2026

Wave 7: Price Book

Feature	Description
Service Catalog	Build your service menu
Categories	Organize by service type
Flat-Rate Pricing	Set standard prices
Time Estimates	Store job duration estimates
Quick Quote	Pull from price book to quotes

Expected: Q3 2026

Wave 8: Mobile App

Feature	Description
iOS App	Native iPhone app
Android App	Native Android app
Technician View	See assigned jobs
Status Updates	Update job status in field
Photo Capture	Add photos to jobs/equipment
Offline Mode	Work without connectivity

Expected: Q4 2026

Long-Term: 2027+

Wave 9: Online Booking

Feature	Description
Customer Portal	Self-service booking
Availability Sync	Real-time availability
Service Selection	Choose from price book

Confirmation Flow	Automated confirmations
-------------------	-------------------------

Wave 10: Payments

Feature	Description
Stripe Integration	Credit card processing
Invoice Payments	Pay invoices online
ACH Transfers	Bank transfer support
Payment Plans	Installment options

Wave 11: Integrations

Feature	Description
QuickBooks Sync	Accounting integration
Zapier Integration	Connect to 5000+ apps
API Access	Build custom integrations
Webhooks	Event-driven notifications

Future Considerations

- Marketing automation
- Inventory management
- Route optimization
- Vendor integrations
- Predictive maintenance
- Multi-location support

Release Cadence

Our Commitment

Timeline	Commitment
Bug fixes	24-48 hours for critical
Minor updates	Weekly
Feature releases	Monthly
Major releases	Quarterly

Communication

- **Changelog:** All updates documented
- **Release Notes:** Detailed feature descriptions
- **Advance Notice:** 2 weeks for breaking changes
- **Beta Access:** Early access for Enterprise customers

Timeline Visualization

2026

- └─ Q1
 - └─ Wave 2: Customer Management
 - └─ Wave 3: Scheduling (start)
- └─ Q2
 - └─ Wave 3: Scheduling (complete)
 - └─ Wave 4: Invoicing
 - └─ Wave 5: Equipment Passport
 - └─ Wave 6: Notifications (start)
- └─ Q3
 - └─ Wave 6: Notifications (complete)
 - └─ Wave 7: Price Book
 - └─ Wave 8: Mobile App (start)
- └─ Q4
 - └─ Wave 8: Mobile App (complete)
- └─ 2027
 - └─ Wave 9: Online Booking
 - └─ Wave 10: Payments
 - └─ Wave 11: Integrations

Prioritization Factors

How We Decide What to Build

1. **Customer Impact:** How many customers benefit?
2. **Strategic Value:** Does it differentiate us?
3. **Technical Foundation:** Is the groundwork ready?
4. **Market Demand:** Are customers asking for it?
5. **Competitive Pressure:** Do we need feature parity?

Your Input Matters

- **Feature Requests:** Submit via support or sales
- **Priority Voting:** Enterprise customers get roadmap input
- **Beta Programs:** Early access for feedback

Guarantee

What We Promise

1. **No Feature Removal:** Once shipped, features stay
2. **Data Portability:** Export your data anytime
3. **Price Stability:** Grandfathered rates for loyal customers
4. **Communication:** No surprises on major changes

What We Don't Promise

- Exact ship dates (we ship when it's ready, not before)
- Every feature on this roadmap (priorities may shift)
- Perfect execution (we'll make mistakes and fix them)

Questions?

Sales Inquiries: sales@tradesflow.com **Feature Requests:** feedback@tradesflow.com **Technical Questions:** support@tradesflow.com

This roadmap is updated quarterly. Last updated: March 2026. Actual delivery times may vary based on development complexity and customer feedback.
